Forming Disciples.
Empowering Leaders.
Changing Lives.

“There's no other school I'd rather send my children to than The Academy of Saint Adalbert in Berea. Not only is the education outstanding (both of my daughters have received thousands of dollars in high school scholarships), but the personal attention, care and love each child receives is beyond compare.”

— Dan Hahn, Parent

At the Academy of St. Adalbert, we have made a commitment to smaller class sizes because we believe in a more personalized education. We offer enrichment opportunities as well as interventions to help our students achieve to their highest potential .

What is the STEP-by-STEP Student Stewardship© Program?

Parents volunteer to implement the STEP-by-STEP Student Stewardship© program, both in and out of the classroom. They come into the classroom on a monthly basis with activities, literature and a lively discussion. Additionally, they facilitate the opportunities out of the classroom which give the students the opportunity to serve face-to-face with those in need in the community. Every grade focuses on a different community need that the students will learn about for the entire year.

“The Catholic and Christian environment of the school - loving, kind, nurturing and supportive is practiced by the student body, as well as the teachers and administrators. It is what brought and kept me and my children here.”

— James Mihelich, Parent

“I am amazed at what my son has learned this year!”

— Shelley Klemens, Parent

- Yearlong service experiences within the community
- Smaller class sizes fostering individuality
- Supportive environment cultivating young learners
